

Splash Car Wash

Damage Claim Setup and Process

User Guide

Section 1 — Claim Form Links by Site

Each location has its own claim form. Use the link for your site.

Site	Claim Form URL
Binghamton	https://splashcarwashes.info/claims/binghamton
Cicero	https://splashcarwashes.info/claims/cicero
Cortland	https://splashcarwashes.info/claims/cortland
Elmira Heights	https://splashcarwashes.info/claims/elmira_heights
Johnson City	https://splashcarwashes.info/claims/johnson_city
Leray	https://splashcarwashes.info/claims/leray
Oswego	https://splashcarwashes.info/claims/oswego
Vestal	https://splashcarwashes.info/claims/vestal
Watertown	https://splashcarwashes.info/claims/watertown

Section 2 — Opening the Claim Form in Chrome (Samsung Tablet)

1. Unlock the tablet and tap the Chrome icon to open it.
2. Tap the address bar at the top of the screen.
3. Type your location's claim form address from Section 1 — for example:
splashcarwashes.info/claims/johnson_city
4. Tap Go (or the enter/arrow key) on the keyboard.
5. The claim form loads with your site's name in the blue header. You're ready to start a claim.

Tip: Type the address carefully. The part after /claims/ is your site's slug (see Section 1) and must match exactly.

Section 3 — Saving the Shortcut to the Home Screen

Do this once so staff can open the form with a single tap in the future.

6. Open Chrome on the tablet.
7. Go to your location's claim form (the website from Section 2).
8. To the right of the address bar, tap More (:) > Add to home screen > Create shortcut.
9. In the dialog that appears, keep the default name or rename it to something clear like "Damage Claim - [Site]".
10. Tap Add. The shortcut now appears on the home screen.

Tip: Shortcuts with the Chrome logo will open in Chrome.

Section 4 — Deleting the Old Damage Claims Shortcut

Remove the outdated shortcut so staff don't use the wrong link.

11. Go to the home screen where the old damage claims shortcut sits.
12. Press and hold the old icon until a menu or the Remove option appears.
13. Tap Remove (or drag the icon up to Remove at the top of the screen) and confirm if asked.
14. This only deletes the shortcut — it does not delete Chrome or any app or data.

Section 5 — Filling Out the Claim Form

The form has two parts: Customer Information (filled by the customer) and Staff Assessment (filled by staff, behind a PIN).

Page 1: Customer Information — completed by the customer

The header shows the site name and "Vehicle Issue Report." Required fields are marked with an asterisk (*):

Your Name*, Phone Number*, Email Address* (a copy of the claim is emailed here), Mailing Address*, License Plate*, Vehicle Year*, Vehicle Make*, Vehicle Model*, Vehicle Color*, Description of Issue*.

Tap Continue to staff assessment →.

The screenshot shows a mobile app interface for "Splash CAR WASH Johnson City Vehicle Issue Report". The form is titled "1. Customer Information" and includes a sub-header "Please provide your contact and vehicle details." The form contains several input fields, each marked with an asterisk (*) to indicate it is required. The fields are arranged in two columns: "Your Name", "Phone Number", "Email Address", "Mailing Address", "License Plate", "Vehicle Year", "Vehicle Make", "Vehicle Model", "Vehicle Color", and "Description of Issue". The "Description of Issue" field is a larger text area. A blue button at the bottom right says "CONTINUE TO STAFF ASSESSMENT →". The footer of the app shows "© Splash Car Wash".

Customer Information page

Staff PIN gate

A "Staff PIN required" box appears: "Enter the staff PIN to continue with the assessment portion of this claim." Enter the staff PIN and tap Continue. (A wrong PIN shows "Incorrect PIN. Please try again.")

Page 2: Staff Assessment — completed by staff

- Employee Name* and Membership / Barcode (optional).
- Photo sets, each added with + Add photo: Four-Corner / Full-Vehicle Photos*, VIN Photo*, Damage Photos*, License Plate Photo*.
- Pre-Existing Damage Noted (optional) — e.g. "Scratch on rear bumper, dent on driver door."
- Damage Type* dropdown: License Plate, Wiper, Collision, Roof Rack/Roof Accessory, PS Mirror, DS Mirror, Window, Paint Damage, Rims, Tires, Other. Choosing Other reveals a "Description of other*" box.
- Was the damage equipment related? No/Yes toggle (defaults to No). Selecting Yes reveals Equipment Involved*: Top Brush, Side Wraps, Conveyor, Dryer, Wheel Blaster, Other.
- Determination* (choose one): No Responsibility — damage is pre-existing or not caused by the wash; Requires GM Review — needs General Manager evaluation; Requested Customer Get Quote(s) — customer will obtain repair estimates.
- What Was the Customer Told? (optional) and Customer Interaction & Demeanor (optional).
- Tap Submit claim.

2. Staff Assessment

For Splash employees only.

This section must be completed by a Splash employee.

Employee Name *

Membership / Barcode
If customer is a member

Four-Corner / Full-Vehicle Photos *

Photos of all four corners showing overall vehicle condition

+ Add photo

VIN Photo *

Usually on driver's side dashboard or door jamb

+ Add photo

Damage Photos *

Close-up photos of all damage areas (one or more)

+ Add photo

License Plate Photo *

+ Add photo

Pre-Existing Damage Noted

Describe any damage visible before the wash

e.g., Scratch on rear bumper, dent on driver door...

Damage Type *

Select damage type...

Was the damage equipment related?

No Yes

Staff Assessment — top

Was the damage equipment related?

☒ No ☐ Yes

Determination *

☒ **No Responsibility**
Damage is pre-existing or not caused by the wash

☐ **Requires GM Review**
Needs General Manager evaluation

☐ **Requested Customer Get Quote(s)** **MANAGERS ONLY**
Customer will obtain repair estimates

What Was the Customer Told?
Document exactly what you communicated to the customer

Told customer that the damage was preexisting and not something that could have happened at the car wash.

Customer Interaction & Demeanor
Optional but helpful for claim review

They seemed sad.

SUBMIT CLAIM

Section 6 — Reviewing and Resolving a Claim (Manager)

Once a claim is submitted, a manager reviews it in the internal tools backend, sets the cause, finalizes a determination, uploads any quotes or receipts if needed, and moves it toward a resolution (including submitting a check request when a payout is approved).

Step 1: Sign in

Open the internal tools site and sign in with your Splash account email and password. Tap Sign In.

Sign-in screen

Step 2: Open Operations

On the Dashboard, find the three sections: Submissions, Operations, and Admin. Under Operations ("Damage claims, work orders, and performance tracking"), tap Open →.

Dashboard — Operations section

Step 3: Open Damage Claims

In the Operations menu, tap Damage Claims ("Review and manage vehicle damage claims and resolutions") > Open →.

Step 4: Find the claim

The Damage Claims list has filters across the top: Search (customer name), Location, Status, Lifecycle, Regional Director, Regional Manager, and a Submitted date range. Set any filters and tap Apply filters (or Reset to clear). Tap a claim row to open it. Export CSV downloads the current list.

Damage Claims list with filters

Step 5: Review the claim details

The claim page shows everything the customer and staff submitted: customer contact info, vehicle, location, who submitted it, the staff Determination and Damage Type, plus Preexisting Damage and Staff Notes (what the customer was told and their demeanor). Use Add note to record follow-up, and Add document to attach a quote or receipt (see Step 8).

Step 6: Set the Cause

Scroll to the Cause section. Every claim defaults to “Choose a cause”. Choose the cause from the dropdown, then tap Save cause:

- No Fault
- Employee Error
- Equipment Malfunction
- Not Employee/Equipment

Cause

What caused this damage? Leave it unset until you've determined the cause.

Step 7: Choose how to move forward

The Move forward section lists the resolution actions. Pick the one that fits:

- Approve - Pending Quotes — approve the claim; it now waits on quotes/estimates.
 - Approve - In House (Parts Ordered) — handle the repair in house. Optional Parts and Vendor fields.
Note: Receipt(s) must be added to “Add Document” for in house repairs.
 - Send to RM Review — escalate to the Regional Manager.
 - Deny — close the claim as denied.
- **Note:** Claims that were denied at the time the form was submitted still need to be denied in the admin view in order to CLOSE the claim.

Tip: The uploaded claim photos (Vehicle Overview, VIN, Damage, License Plate) appear on the claim page for reference while you decide.

Claim photos on the claim page

Step 8: Upload a quote or receipt (if claim is approved)

To attach an estimate or receipt, use Add document. Attach a Quote or Receipt (PDF, JPG, PNG, or HEIC; up to 10 MB) and fill in the fields:

- Document Type — Quote or Receipt
- File — tap Choose File and select the document
- Vendor, Amount (\$), Pay To (e.g. Customer or the vendor), Vendor Address, and Notes

Important: To generate a check-request PDF later, a Quote must include an Amount and a Pay To. If paying the vendor directly, also fill in the Vendor name and Vendor Address. Tap Upload document.

Upload document

Attach a Quote or Receipt (PDF, JPG, PNG, or HEIC; up to 10 MB). Quote rows must include amount + pay-to so the check-request PDF can be generated; vendor pay-to additionally requires vendor name + vendor address. Receipt fields are optional.

DOCUMENT TYPE	FILE
Select type...	Choose FileNo file chosen
VENDOR (OPTIONAL)	AMOUNT (\$) (OPTIONAL)
Name of the shop, supplier, etc.	0.00
PAY TO (OPTIONAL)	VENDOR ADDRESS (OPTIONAL)
(unset)	Required only when paying the vendor directly
NOTES (OPTIONAL)

Name of the shop, supplier, etc.	123
PAY TO	VENDOR ADDRESS (OPTIONAL)
Customer	Required only when paying the vendor directly
NOTES (OPTIONAL)	

Upload document

Add document — filled in

Step 9: Approve into Pending Quotes

When you approve a claim into Pending Quotes, a confirmation asks "Was this damage equipment related?" The employee's original answer is pre-filled, but you can override it. Choosing Yes creates a MaintainX work order assigned to maintenance. Tap Confirm - Approve - Pending Quotes.

A confirmation dialog box with a white background and a dark border. The title is "Was this damage equipment related?". Below the title is explanatory text: "You're approving this claim into Approve — Pending Quotes. The employee marked it equipment_related = no, but you can override that here. If you say Yes, a MaintainX work order will be created and assigned to maintenance." At the bottom, there are four buttons: "No" (light blue), "Yes" (light blue), "Cancel" (white), and "Confirm — Approve — Pending Quotes" (dark blue).

Equipment-related confirmation

Step 10: Approve the quote and submit the check request

After a quote is added, the Move forward section shows Approve Quote (submit Check Request). Pick the quote from the Quote to approve dropdown (each is listed as #ID - \$Amount), then tap Approve Quote (submit Check Request). This submits the check request and moves the claim to Approved - Check Request Submitted.

This will send the check request to Incidents to be reviewed and submitted to AP for payment.

A screenshot of the "Move forward" section. It features a light blue background. On the left, under the heading "ACTION", is a button labeled "Approve Quote (submit Check Request)" with the text "Approved - Check Request Submitted" below it. To the right of this is a dropdown menu labeled "QUOTE TO APPROVE" with the text "Select a quote..." and a downward arrow. Below the dropdown, a list item is visible: "#195 — \$123.00". To the right of the dropdown is a dark blue button labeled "Approve Quote (submit Check Request)".

Approve quote and submit check request
